

DOORS – MAKING HINGES

There are several ways to make simple hinges for doors. Encourage children to try out several methods and choose the one that they think is most appropriate for their building, depending upon what it is used for, how strong it might need to be and who might use it.

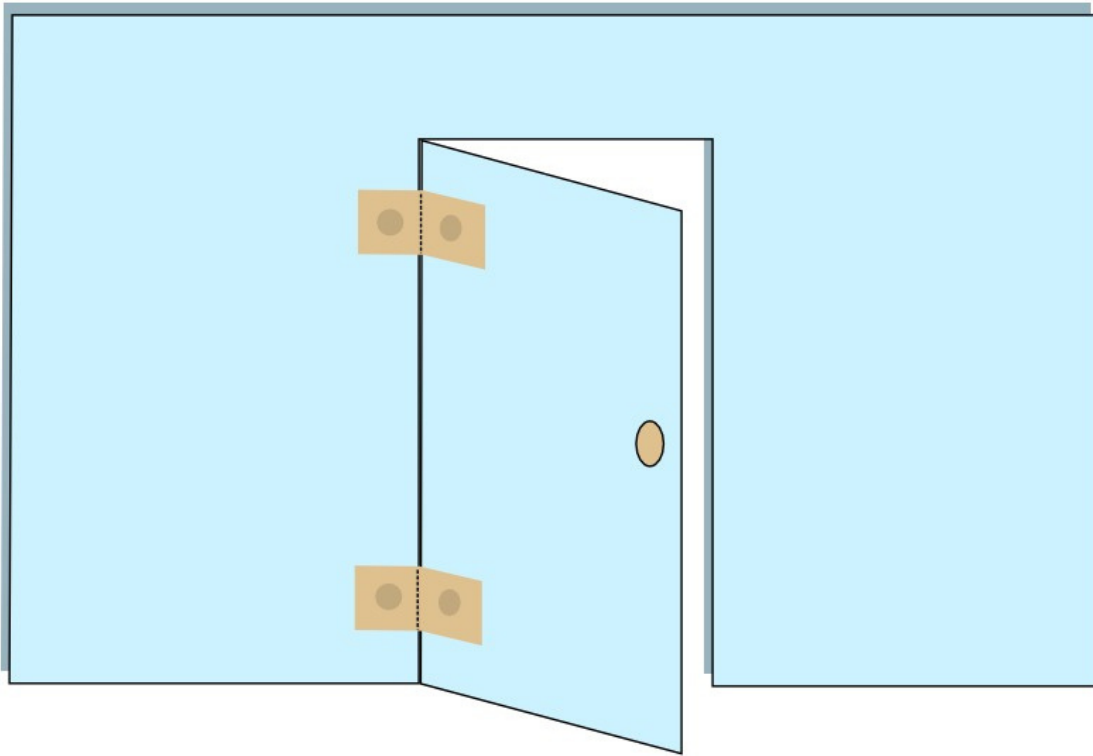

Simple card door with folded hinge

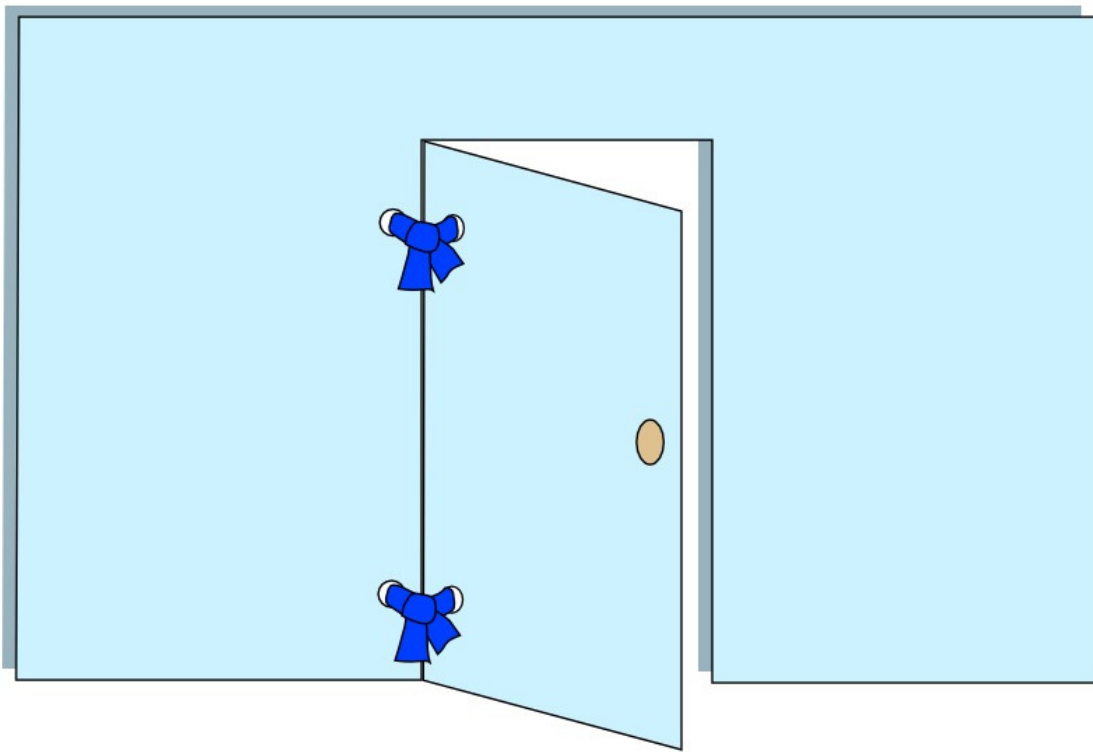

Hinged with tape or a stronger card hinge

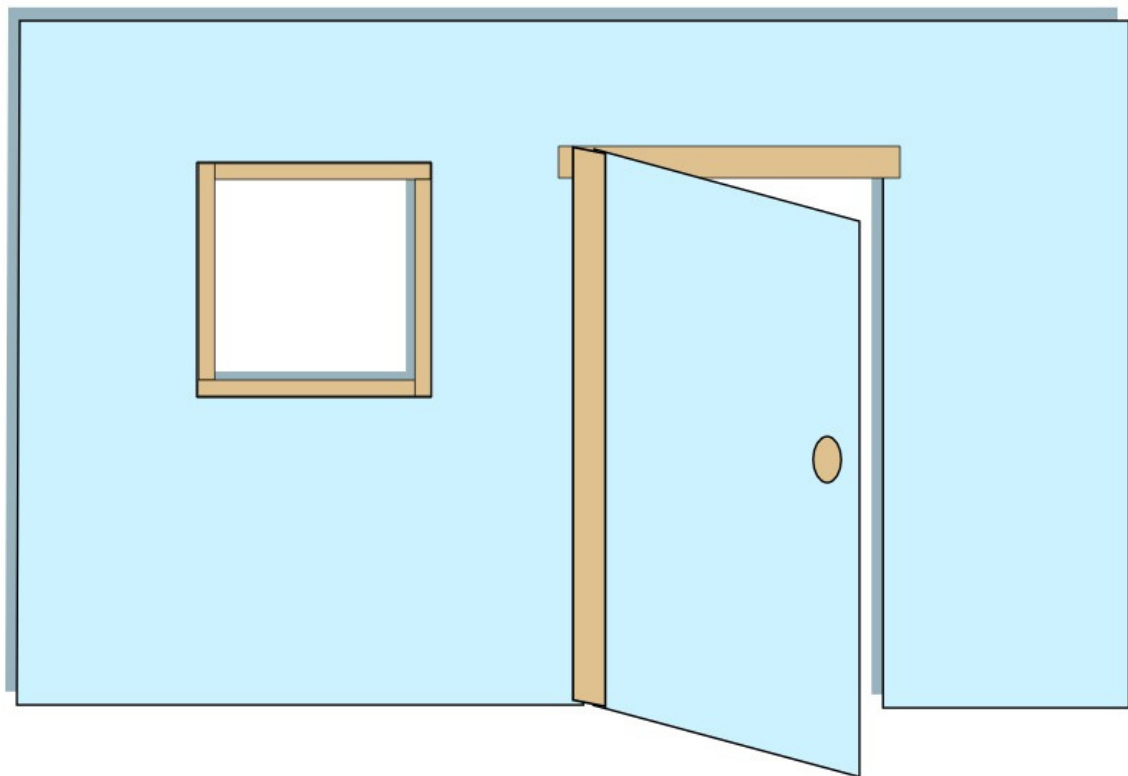

Paper fastener hinges with fabric covering

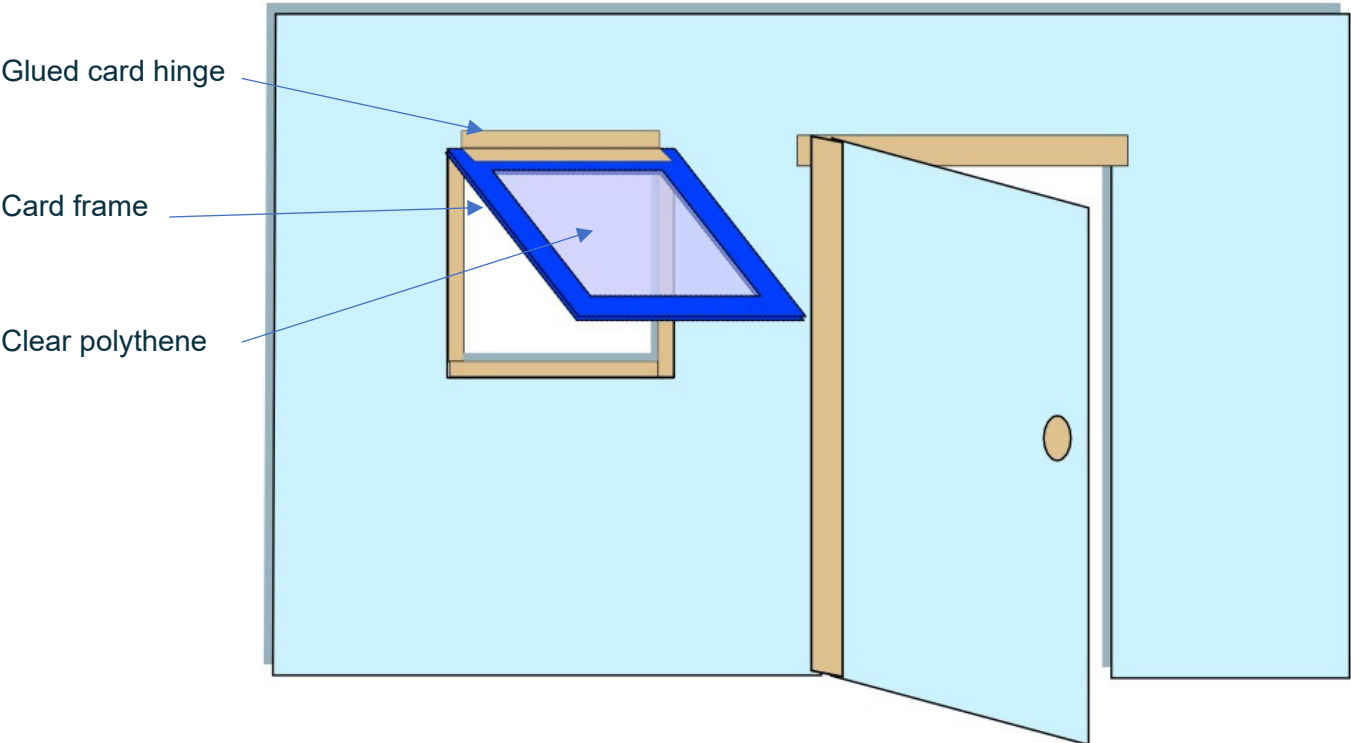

Treasury tags, string or ribbon

Matchstick window frames and 8mm wooden lintel

Opening window

Different Hinge Designs
