

YEARS 8 & 9 ENGINEERING EXPERIENCE

6 - 8 April 2020

University of Nottingham

3 days full board residential course

£260

Ignite your potential on this course that shines a spotlight on the exciting and dynamic world of engineering. This course will dare you to imagine the world of tomorrow, giving you the chance to work alongside world leading engineering companies which in the past have included Aston Martin, Jaguar Land Rover and the RAF. Experience first-hand what it takes to be an engineer by designing and creating prototype products with the help of young engineers that do this for a living.

- Analyse high-tech engineered products, the roles they play, and what makes them work.
- Design and build your own working prototype product using a range of materials and control systems.
- Tackle budgets and see how your decisions affect finances.
- Analyse your data to find ways to improve your project.
- See what it takes to be a true engineer, finding creative solutions that have real potential.
- Explore a range of career paths that could take you far and wide around the world.
- Work alongside experts who know their stuff and can answer all your questions.
- Have fun working as a team, sharpening your communication, time management, planning and presentation skills.
