PLACES ONLY NOW AVAILABLE)**

YR 9 OFF ROAD VEHICLE ENGINEERING

30 March - 1 April 2020

Harper Adams University, Shropshire

3 days full board residential course

£285

Put your engineering skills into top gear with a course that explores the exciting off-road vehicle industry.

Learn all about vehicle mobility, traction, suspension design, steering and transmission systems with hands-on workshops with the experts.

You'll also get a taste for university life and discover exciting careers at the same time.

Design and build an off-road vehicle model to compete in our vehicle mobility challenge.

Learn the ins and outs of developing off-road suspension systems.

Use the model vehicle to explore test and development strategies and develop your problem-solving ability.

Discover an exciting range of careers for off-road vehicle designers.

Have fun working as a team, sharpening your communication, time management, planning, and presentation skills.

Build your CV and make your UCAS application stand out.
